

## Circle of Joy

### Chelsea, age 7, relapsed medulloblastoma “I wish to meet the characters from Frozen!”

More often than not, the Make-A-Wish team has enough time to plan out wishes, to make sure all the little details are perfectly in place.

But sometimes, sadly, doctors tell us that wishes can't wait.

Chelsea's rush wish to meet the characters from Frozen was exactly one of those times. Thanks to our caring community, this wish was granted very quickly with incredible style, ingenuity, attention to detail, and in a generous spirit.

In less than the space of two weeks, the perfect wish was planned. In mid-November, as the weather was truly getting wintery outside, so it was inside, through a magical transformation at Vancouver's **Rosewood Hotel Georgia**, who generously offered up their space for Chelsea's wish. **Greenscape Décor** put together a beautiful winter wonderland room, complete with shimmering balloon archway at the entrance, delicious catering, and decorations fit for a princess.

**As You Wish Princess Parties** brought the magic of *Frozen* to life, bringing Elsa, Anna and Olaf along to meet wish kid Chelsea.

Chelsea was able to gather with forty of her friends and family in the transformed room for a day, and a party, she'll never forget! Doctor's appointments were all forgotten, replaced instead with food, stories, lots of time with her favourite characters, snow making, and even a crowning with a Tiara from her favourite princess. All of these favourite moments were caught on camera by **Clint Barga**, so Chelsea and her family will be able to relive this special day again and again. Wishes can't always wait, and when they can't, we are so thankful for everyone who comes together to make special memories happen, and for delivering hope, strength and joy to deserving kids like Chelsea.
