

## HUNTER'S WISH

**I wish to have a  
Taylor Koa  
guitar!**

CIRCLE OF JOY  
2015  
OCT

We granted a surprise wish with the help of our friends at Red Truck Brewery and Country Music Star, Logan Mize, and his team at the Red Truck Summer Concert Series.

Wish Child, Hunter, spent the day hanging out with the band and rehearsing for her part of singing a duet with Logan that evening, with no idea that her 'wish to have a custom made Taylor Koa guitar' was also going to be granted in front of 2,000 people.

Backstage, she was a little nervous but really excited as she said a few times looking out at the crowd, "I've dreamt of a moment like this since I was 2 years old – thank you so much!"

The time came and Logan introduced Hunter as an up and coming country artist and they performed an extended Taylor Swift number together and Hunter rocked it! Hunter was a star. The crowd loved it and cheered loudly and then we came out on stage and explained the extra special surprise and when the guitar was brought out, Hunter dropped to the stage and the crowd went wild. None of us who witnessed this will forget the look of JOY on Hunter's face.

"I don't even know where to begin. I am the happiest girl and the most blessed girl all thanks to you and everyone. Please send my thanks to everybody...I can't even find words to describe how I'm feeling right now. Tonight was the best night of my life and I still can't believe everything that happened..."

Hunter, Age 17, Melanoma

Thanks to Slo-Pitch For Kids for adopting this wish!
